Generations at Work: Navigating 5 Generations in the Workplace

Subject Code 3:

CEU-118910:

Interior Design Education – Health, Safety, Welfare designation

Objective: For the first time in American history, we have 5 generations in the workforce. This course will focus on providing attendees a better understanding of generational differences in today's workplace, providing tools to navigate the challenges to move the organization forward. Attendees will leave with actionable steps to strengthen their own abilities in working with each generation.

Employee Engagement: Research Based Engagement Drivers to Grow you and your Team

Subject Code 3:

CEU-118356:

Interior Design Education – Health, Safety, Welfare designation

Objective: There has never been a more critical time for organizations to understand what impacts employee engagement and how it leads to greater workplace productivity than today. We will share research-based strategies toward workplace engagement, including next steps they can implement for themselves and those around them toward overall wellbeing and engagement.
