SHOWCASE

THANK YOU

2023 BENEFACTORS

As the year draws to a close, we extend our deepest gratitude to our invaluable benefactors. Your unwavering support has been the driving force behind our successes this year. Through your generosity, we've been able to make a significant impact in the design community both at the city center level and campus center level. Your belief in our mission has not only elevated our organization but has also touched the lives of those we aim to support. As we reflect on the past year, we are filled with gratitude for the positive change we've been able to effect in the community. Thank for your unwavering commitment and partnership and now it is time to showcase each and every one of you!

Milliken

Flooring Designed Differently

At Milliken, we are a science-based company with a forward-thinking goal: To maximize the potential and capabilities of any technology and innovation we encounter. With our goal, we believe aesthetics should be backed by science. That's why, with us, you experience the benefits of flooring designed *differently*. We've engineered a multitude of products like our WellBAC® cushion-backed carpet tile and resilient flooring to provide a wide range of deeper, long-term benefits. *Sometimes the things you can't see make all the difference.*

DECLARE
FORWARD

It Takes Humans To Protect Humanity.

Here at Milliken, we stand **FOR HUMANKIND** in every decision we make. That's why we launched the M/PACT™ carbon neutral program. Today, our carpet, resilient, and entryway tiles are carbon neutral everywhere in the world. We continue to invest in new technology and create flooring products that enable you to make better choices. That's why we're proud to say our entire carpet tile portfolio is Declare Red List Free, Third Party Verified.

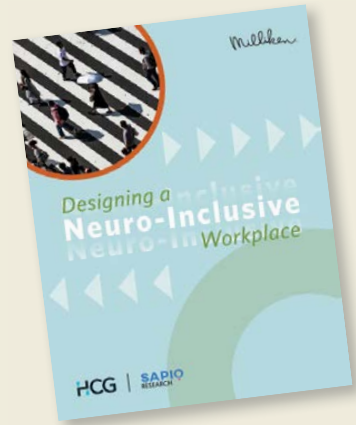

In our pursuit of crafting a resilient, PVC-Free option, we've created the next generational product solution: Merge Forward. Our PVC-Free resilient floor solution is long-lasting, sustainable, and design forward in its creation. All of the products in this collection are certified Red List Free.

NEURODIVERSITY

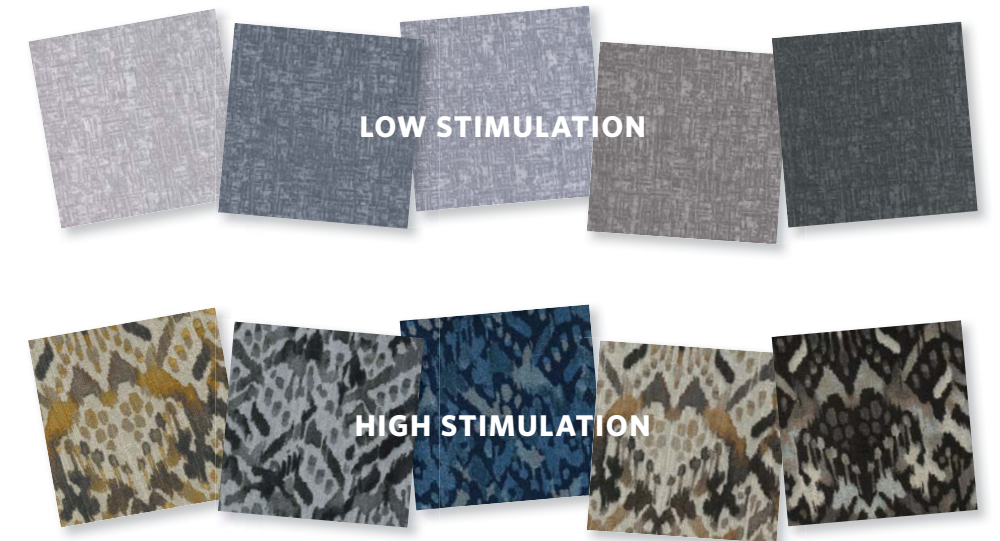

in the Workplace

Just as we invest in technologies and companies, we also invest in people **FOR HUMANKIND**. That's why we partnered with other professionals to create an actionable guide to inspire and help others in designing neuro-inclusive workplaces where all colleagues can truly thrive.

SCAN TO READ
OUR WHITE PAPER

A SNEAK PEAK

When designing a neuro-inclusive space, one helpful consideration is to incorporate low-stimulating color schemes throughout and create deliberate specific areas of high stimulation.

Not every area where people work or gather needs to be devoid of pattern and color. Some areas can use medium or high stimulation choices to energize work collaboration.

Chromatic Cadence

With Chromatic Cadence, we were inspired by the work of ArtLifting artist Yvette and her use of music as a starting point for her expressive, color-filled paintings. This carpet tile collection imagines color as melody, creating a tonal rhythm across the floor and inviting flights of imagination or meditative calm. In 25 hues, Chromatic Cadence offers options that encourage creativity and wellbeing in a space. This simple yet versatile style provides endless possibilities for expressive design.

Above and Below

Below the earth's surface are vast webs of mycelium-- thread-like structures that distribute nutrients among plants and recycle matter into new sources of life-- supporting every element of an ecosystem. We encounter mycelium through their fruiting bodies: mushrooms. All four Above and Below styles feature colors found in the mushrooms that emerge from mycelium below- with each colorway representing a unique species of fungi. To explore the inspiration behind Above and Below, we commissioned two photography works from Michael Van Huffel, an artist with the ArtLifting platform.

Taking Root

Inspired by our deep connection to nature and the grown world, Taking Root explores design elements drawn from mycelium and mushrooms. This LVT collection includes three styles to support unique biophilic design strategies. To explore the theme of Taking Root, we commissioned a work from Lindsey Holcomb, an artist with the ArtLifting platform. A passionate artist and advocate, Lindsey is an inspiration for those living with Multiple Sclerosis and chronic illness. She creates works in a variety of mediums, from alcohol ink to cyanotype printing to encaustic.

better
for the
planet

Our future depends on the work we do today. At Mohawk Group, commitment to our planet extends beyond just products and processes: it's how we challenge ourselves to do and be better every day, how we make decisions, how we reinvest in our people and our planet, and how we define what matters most as we work to deliver value for generations to come.

Carbon Solutions

All our products are Beyond Carbon Neutral, meaning that Mohawk Group and Durkan Hospitality achieves a net-zero impact in carbon and water, plus an additional 5%. This results in an overall positive economical impact.

Water Innovation

We continue to work toward our goal to reduce water use intensity and remain committed to find improvements to ensure water conservation. In 2021, we restored 8 million gallons of water thanks to our Waterways Project collections.

Handprinting Impacts

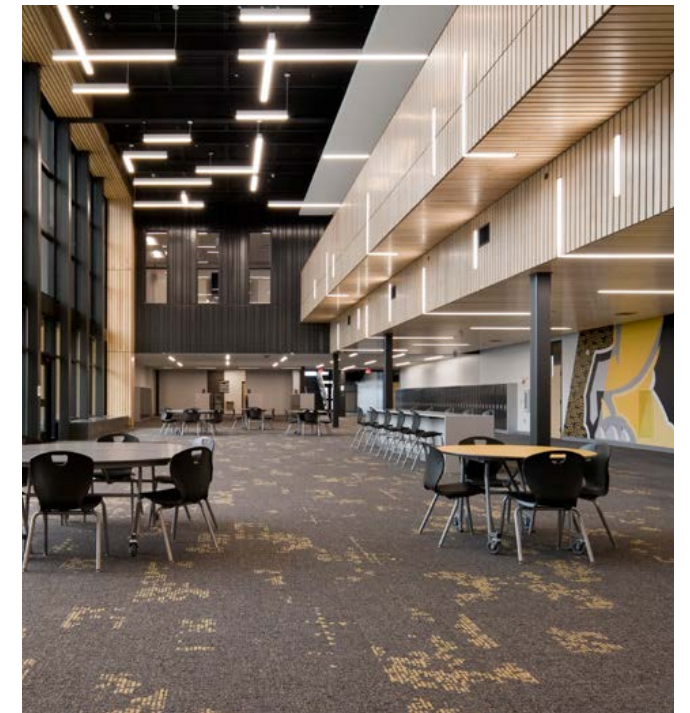

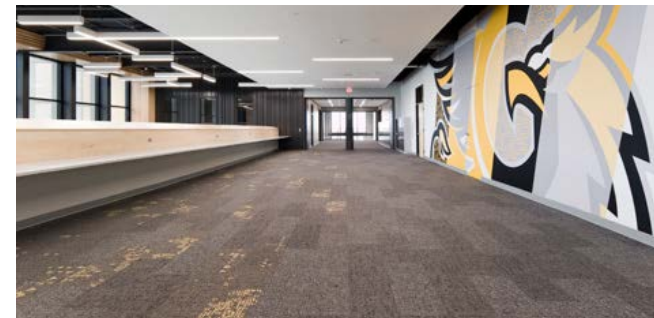

We recycle 6 billion plastic bottles annually in fiber production and, depending on project location, Mohawk will take and recycle any carpet through our North American network of carpet recyclers through our ReCover Program.

Collaborate & Create

Introducing the Collaborative Collection

At the foundation of culture is connectivity – the driving factor in returning to a shared workspace. With LVT and carpet from the Collaborative Collection, we explore the artistry of working together, creating spaces that are inspiring, versatile and support your sustainability goals. We make our customers more inherently sustainable with products and practices that consider every step in the value chain, and we show those efforts with proof in every step.

Previewed at Design Days in Chicago this past June, see the entire collection this October. To learn more, go to: commercial.tarkett.com/collaborative

Interface®

Carpet Tile | LVT | nora® Rubber Flooring

We are Interface and We're Changing the World

Interface is a global leader in modular flooring, offering an integrated collection of carpet tiles and resilient flooring that includes luxury vinyl tile (LVT), rigid core and nora® rubber flooring.

It began in 1973 when our founder, Ray Anderson, saw a carpet tile in Europe and recognized its future potential in modern offices. He introduced the concept to America and started a commercial flooring revolution that would spread around the world.

Director of Business Development with a long-term view on the global importance of building and enhancing sustainable sourcing in the textile value chain.

CELEBRATING

74

YEARS IN BUSINESS

We look forward to working with you as we approach our 75th anniversary. We opened our doors in 1950. Now a 3rd generation family textile and foam fabrication company.

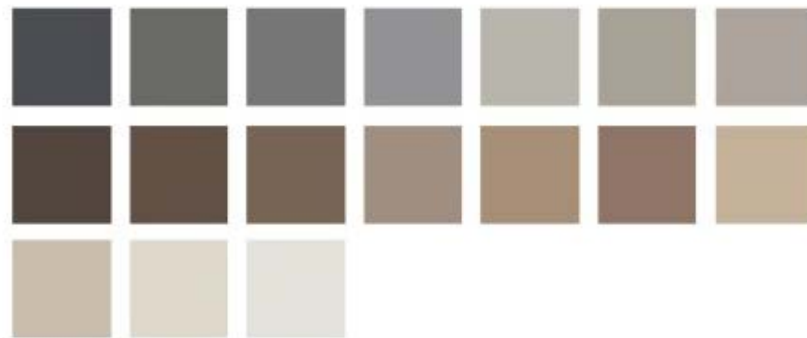

OLD COLORS VS NEW

29 colors are
NEW to the
base palette
of 70 colors

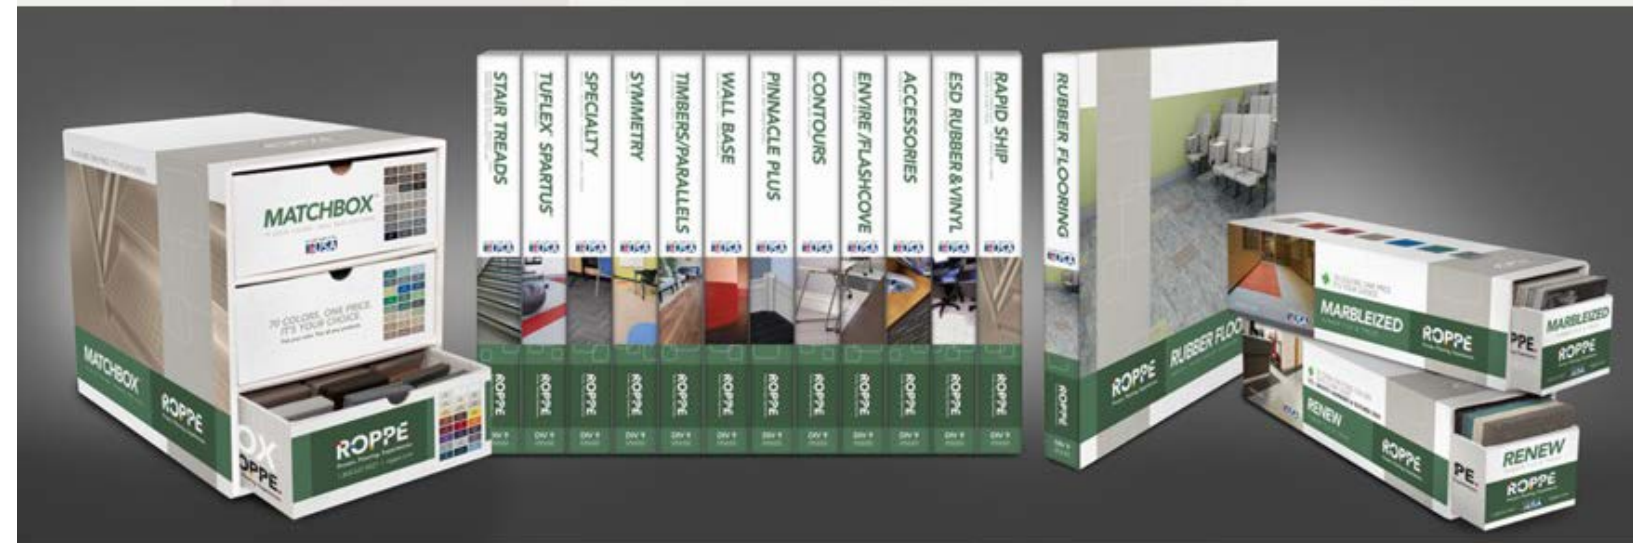

The new palette boasts stylish neutrals, including warmer grays plus blush and gray-beiges

New colors favor crisp tones that pair well with or offer contrast to neutrals adding depth to your options

NEW! BRANDING

**SHERWIN
WILLIAMS®**

Spec & color expertise. At your service.

Sherwin-Williams is your one partner for every project, simplifying the specification process by offering a comprehensive range of coatings for every type of product from start to finishes. Explore our complete portfolio of products, resources, and more.

The paint you trust.

Now with Air Purifying Technology.

The Living Well™ Collection includes paints and colours carefully chosen to help you turn your customer's home into a haven of comfort, style and well-being.

SuperPaint® with Air Purifying Technology

-  Contributes to cleaner indoor air quality*
-  Reduces common household odors
-  Inhibits the growth of mold & mildew

*Reduces VOC levels from potential sources like carpet, cabinets and fabrics and works to reduce unwanted household odors. The length of time SuperPaint® with Air Purifying Technology Interior Acrylic Latex actively reduces odors and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.

*Reduces VOC levels from potential sources like carpet, cabinets and fabrics and works to reduce unwanted household odors.
